### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record do not anticipate nor do they reasonably suggest the combination large kitchen or barbeque for and guard and the corresponding method as claimed in claims 2, 9 and 12. The closest prior art, Gibson (US 2,232,321), teaches a meat tenderizer comprising many of the claimed features as noted in the last Office Action. However, Gibson lacks a magnet that cooperates with a steel collar to retain the guard nor the method in using the same. Moreover, none of the other prior art of record fairly teach or suggest this lacking feature or method of use. Thus, it is believed the lacking feature and method step in combination with all the other recited features and method steps are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
